

A summary of the product's important properties

Product name: L90 clamp

Product name: L90 clamp	Code:	the map number and index:
Technical No: ...	revision date:	the qualitative department:-

R	The important parameters	value/ tolerance	the importance level	the importance reason
1	the physical properties	without any deformity caused by trauma or stress and also, without any burrs, with correctly installed thermal covers	B	difficult assembly(2)
2	the jack thickness	0.8 ± 0.03 mm	B	difficult assembly(2)
3	the jack head width	6.3 ± 0.1 mm	B	difficult assembly(2)
4	The Jack Material	ASTM C1100: TPC copper in accordance with ASTM C1100	B	The low voltage drop in And jack soldering strength(2)(3)

considerations

- Put the parameter in one of the 3 categories of A, B, C in terms of its identified importance level (the most important one= A).
- The symbols (1), (2), (3), (4) in the potential destruction signs' column represent the internal customer dissatisfaction, glass production line, passenger vehicle production line, and the vehicle driver.
