

## A summary of the product's important properties

Product name: T jack

576/0006/2

<b>Product name:</b> the Pride specific jack	<b>Code:</b> 15111	<b>the map number and index:</b>
<b>Technical No:</b> ...	<b>revision date:</b>	<b>the qualitative department:-</b>

R	The important parameters	value/ tolerance	the importance level	the importance reason
1	the physical properties	lack of deformity and burrs and the Ivory perfectness	B	difficult assembly of the jack on the socket.(3) the jack soldering strength and the jack separation from the glass.(2)(4)(3)
2	the jack thickness	$0.8 \pm 0.03$ mm	B	difficult assembly of the jack on the socket.(3)
3	the jack head width	$6.3 \pm 0.1$ mm	B	difficult assembly of the jack on the socket.(3)
4	The Jack Material	Copper TPC	B	the low voltage drop in the heater circuit and better heating of the glass.(4) jack soldering strength and lack of separation between the glass and jack.(2)(4)(3)

### considerations

- Put the parameter in one of the 3 categories of A, B, C in terms of its identified importance level (the most important one= A).
- The symbols (1), (2), (3), (4) in the potential destruction signs' column represent the internal customer dissatisfaction, glass production line, passenger vehicle production line, and the vehicle driver.
